7.1 Definitions

General definitions are provided in Volume I of the Source Protection Plan or in the *Clean Water Act, 2006*. Defined terms are intended to capture both the singular and plural forms of these terms.

The following definitions shall apply to the County of Wellington Source Protection Policies.

County – means the Corporation of the County of Wellington.

Existing – except where otherwise indicated in this Plan, existing means:

- a. A use, activity, building or structure at a location in a vulnerable area that is in compliance with all applicable regulations on the effective date of this Source Protection

Plan, or at some point prior to the effective date of the Source Protection Plan with a demonstrated intent to continue; or

- b. An expansion of an existing use or activity, which may include a new building or structure to service the existing use or activity, where the expansion reduces the risk of contaminating drinking water; or
- c. The expansion, replacement or alteration of an existing building or structure associated with a significant drinking water threat that does not increase the risk of contaminating drinking water; or
- d. The conversion of an existing use to a similar use, provided it is demonstrated that the conversion will reduce the risk of contaminating drinking water.

New or Future – means not existing, as defined herein.

Municipality – means one or more of the seven lower tier municipalities located within the County, consisting of the Township of Guelph-Eramosa, Township of Centre Wellington, Town of Erin, Township of Mapleton, Township of Puslinch, Town of Minto, and the Township of Wellington North.

Stormwater Management Facility - means one or more of the following measures constructed to collect, control, infiltrate and / or discharge stormwater run-off.

- Stormwater management ponds (ie wet ponds)
- Dry or retention ponds
- Constructed wetlands
- Low impact development measures including, but not limited to, infiltration galleries / basins, soak away pits, pervious pipe (subsurface) and / or permeable pavement
- Infiltration trenches (open to surface) including but not limited to swales, vegetated strips
- Lot level infiltration measures used to infiltrate storm run-off from salt application areas. This excludes measures used solely to infiltrate roof run-off and water from foundation drains.

Salt Application Area – means the area where salt is applied to provide traction, ice or snow control including melting ice.

Salt – means any solid or liquid chloride-based chemical used to melt ice, provide traction and / or ice / snow control.

	policies, only including but not limited to the addition of new drinking water threats and regulated areas and activities, is the date of posting of the Notice of Approval of the amendment provisions on the Environmental Registry of Ontario.
WC-CW-1.1.2 <i>Implement. & Timing</i>	<p>Except as set out below, the policies contained in this Source Protection Plan shall come into effect on the date set out by the Minister.</p> <ol style="list-style-type: none"> a. For Section 57 of the <i>Clean Water Act, 2006</i>, if an activity was engaged in at a particular location before this Source Protection Plan takes effect, policies regarding prohibited activities do not apply to a person who engages in the activity at that location until 180 days from the date the relevant policies within the Source Protection Plan takes effect; b. For Section 58 of the <i>Clean Water Act, 2006</i>, if an activity was engaged in at a particular location before the relevant policies within this Source Protection Plan takes effect and the Risk Management Official gives notice to a person who is engaged in the activity at that location, policies regarding regulated activities apply to the person who engages in the activity at that location on and after a date specified in the notice that is at least 120 days after the date the notice is given; c. For Section 59 of the <i>Clean Water Act, 2006</i>, policies regarding restricted land uses shall come into effect the same day the relevant policies within the Source Protection Plan takes effect; d. Where the Source Protection Policies require the municipality to develop and implement education and outreach programs as the primary tool for managing or eliminating a particular significant threat, such programs shall be developed and implemented within five (5) years from the date the relevant policies within the Source Protection Plan takes effect. e. For Sections 43 of the <i>Clean Water Act, 2006</i>, if an activity was engaged in a particular location before the relevant policies within this Source Protection Plan takes effect, amendments to Prescribed Instruments shall be completed within three (3) years from the date the Source Protection Plan takes effect; and, f. For Section 40 and 42 of the <i>Clean Water Act, 2006</i>, the Official Plan must be amended to conform with the significant threat policies within five (5) years from the date the relevant policies within the Source Protection Plan takes effect or the next Official Plan review required under Section 26 of the <i>Planning Act</i> and the Zoning By-law within two (2) years from adoption of the Official Plan conformity amendment.
WC-CW-1.2 <i>Transition</i>	<p>For the purposes of this Plan, where one or more of the following:</p> <ol style="list-style-type: none"> a. A complete application for development under the <i>Planning Act</i> or <i>Condominium Act</i>, b. An application for Environmental Compliance Approval; or c. An application for a Building Permit <p>has been received by the applicable implementing body prior to the date this Source Protection Plan takes effect, a related significant drinking water threat may be considered as existing and subject to the policies pertaining to existing significant drinking water threats. Where the above noted applications have lapsed or been withdrawn, the above noted transition policies shall no longer apply.</p>
Uses and Areas Designated as Restricted Land Use	
WC-CW-1.3 <i>Part IV- RLU</i>	<p>In accordance with Section 59 of the <i>Clean Water Act, 2006</i>, all land uses, except solely residential uses, where significant drinking water threat activities have been designated for the purposes of Sections 57 and 58 of the <i>Clean Water Act, 2006</i> are</p>

<p>WC-MC-1.4</p> <p style="text-align: right;"><i>Future Land Use Planning</i></p>	<p>The County and/or municipality shall amend, as required, their Official Plan and Zoning By-Laws to:</p> <ol style="list-style-type: none"> a. Identify the vulnerable areas in which drinking water threats prescribed under the <i>Clean Water Act, 2006</i> would be significant; b. Indicate that within the areas identified, any use or activity that is, or would be, a significant drinking water threat is required to conform with all applicable Source Protection Plan policies and, as such, may be prohibited, restricted or otherwise regulated by those policies; c. Incorporate any other amendments required to conform with the threat specific land use policies identified in this Source Protection Plan.
Education and Outreach Programs	
<p>WC-CW-1.5</p> <p style="text-align: right;"><i>Existing/Future Education & Outreach</i></p>	<p>The municipality, in collaboration with Conservation Authorities and other bodies wherever possible, may develop and implement education and outreach programs directed at any, or all, significant drinking water threat prescribed under the <i>Clean Water Act, 2006</i>, where such programs are deemed necessary and/or appropriate by the municipality and subject to available funding. Such programs may include, but not necessarily be limited to, increasing awareness and understanding of significant drinking water threats and promotion of best management practices.</p>
Incentive Programs	
<p>WC-CW-1.6</p> <p style="text-align: right;"><i>Existing/Future Incentive</i></p>	<p>The County and/or municipality, in collaboration with other bodies and levels of government wherever possible, may develop and implement incentive programs directed at various significant threat activities and/or condition sites prescribed under the <i>Clean Water Act, 2006</i>, where such programs are deemed necessary and/or appropriate by the County and/or municipality, subject to available funding.</p>

Policy Number	Source Protection Plan Policies within the County of Wellington
WC-NB.-1.7 <i>Existing/Future Incentive</i>	The Ministry of the Environment, Conservation and Parks and other provincial ministries shall consider providing continued funding and support to protect existing and future drinking water sources and address significant drinking water threats under the Ontario Drinking Water Stewardship Program and Rural Water Quality Program.
WC-NB-1.8 <i>Existing/Future Incentive</i>	To reduce the risks to drinking water from an existing activity, where this activity is a significant drinking water threat, the Grand River Conservation Authority, in consultation with the County, will deliver available cost share incentive programs as long as the Grand River Conservation Authority has such programs and outreach staff available, and work with affected land owners to implement best management practices for the following activities: <ol style="list-style-type: none"> a. The application of agricultural source material to land; b. The storage of agricultural source material; and, c. The use of land as livestock grazing or pasturing land, an outdoor confinement area or a farm-animal yard.
Annual Reporting	
WC-CW-1.9 <i>Monitoring</i>	The municipality and / or County shall provide a report to the Source Protection Authority, by February 1 st of each year, summarizing the actions taken to implement the Source Protection Plan policies, where specifically required by the policies. Where the municipality and / or County is required to implement education and outreach programs as the primary means of managing the risk associated with significant drinking water threats, the report must indicate, at minimum additional details on how the significant drinking water threat was managed and/or ceased to be significant.
WC-CW-1.10 <i>Monitoring</i>	Where the County and/or municipality is required to amend their Official Plan and/ Zoning By-law to bring their planning documents into conformity with the Source Protection Plan, the County and/or municipality shall provide proof of compliance to the Source Protection Authority, and shall provide a copy of such compliance within 30 days of adoption of the amendment(s) by County and/or municipal Council or, where the matter has been appealed to the Ontario Municipal Board, the date of their decision to approve.
WC-CW-1.11 <i>Monitoring</i>	The Risk Management Official shall provide a report to the Source Protection Authority, by February 1 st of each year, summarizing the actions taken by the Risk Management Official to implement the Source Protection Plan policies, in accordance with the <i>Clean Water Act, 2006</i> and associated regulations.
WC-CW-1.12 <i>Monitoring</i>	Where the Source Protection Plan policies may result in amendments to a Prescribed Instrument or the issuance of a new Prescribed Instrument, the applicable ministry shall provide a summary of the actions taken the previous year to implement the policies and provide a written report summarizing this information to the Source Protection Authority by February 1 st of each year.
WC-CW-1.13 <i>Monitoring</i>	Where the Source Protection Plan policies prohibit an activity that results in the denial of a Prescribed Instrument, the applicable ministry shall summarize the actions taken the previous year to implement the policies and provide a written report summarizing this information to the Source Protection Authority by February 1 st of each year.
WC-CW-1.14	The municipality shall provide a report to the Source Protection Authority, by February 1 st , of each year, for the wells within its jurisdiction. This report shall summarize the

<i>Monitoring</i>	actions taken the previous year to assess the chloride concentrations related to Municipal Well E3 in Elora and Municipal Well F1 in Fergus and / or sodium and chloride concentrations related to Station Street Wells 1 and 2 in Rockwood, including recommendations for further study or monitoring, if required. The report shall include a conclusion on whether the chloride concentrations should be a described issue in accordance with the <i>Clean Water Act</i> and technical rules.
Conditions	
WC-MC-1.16 <i>Existing Prescribed Instr. Condition Sites Identified</i>	To address conditions resulting from past activities that are significant drinking water threats, the Ministry of the Environment, Conservation and Parks shall <ul style="list-style-type: none"> a. Ensure that all Prescribed Instruments issued for Condition sites include terms and conditions, as appropriate, to ensure that the risk to drinking water sources is managed. Appropriate conditions may include requirements for source control, remediation to provincial standards, monitoring and Contaminant Management Plans; b. Ensure that Prescribed Instruments include a condition requiring the instrument holder to report on the actions taken and the status of the site to the Ministry of Environment, Conservation and Parks, Source Protection Authority and the municipality on an annual basis; and c. Provide to the County and/or municipality a copy of the new or revised Prescribed Instrument.
WC-NB-1.17 <i>Existing Specify Action Condition Sites Identified</i>	To address Conditions resulting from past activities that are significant drinking water threats, the Ministry of the Environment, Conservation and Parks should prioritize abatement activities on Conditions Sites located within the Wellhead Protection Area A, Wellhead Protection Area B and Issues Contributing Areas.
WC-NB-1.18 <i>Existing Specify Action Condition Sites Identified</i> <i>Monitoring</i>	To address conditions resulting from past activities that are significant drinking water threats the Ministry of Environment, Conservation and Parks and the County and/or municipality: <ul style="list-style-type: none"> a. Shall meet at a minimum frequency of once a calendar year for the purpose of mutually sharing information on Condition sites; b. Should mutually share information related, as appropriate, to technical investigations or remediation, technical data, actions taken by Ministry of Environment, Conservation and Parks or by the County and/or municipality, inspections, other relevant information; and c. Should develop an Information-Sharing Process document including requirements, if any, for meeting agendas, participants, the nature and format for the types of information to be mutually shared, and the Information-Sharing Process document should be developed within six months from the date the Source Protection Plan takes effect.
Strategic Action	
Spill Prevention, Spill Contingency or Emergency Response Plans	
WC-NB-1.19. <i>Existing/Future Specify Action</i>	To ensure spill prevention plans, contingency plans, and emergency response plans are updated for the purpose of protecting municipal drinking water sources with respect to spills that occur within a WHPA or IPZ along highways, or railway lines: <ul style="list-style-type: none"> a. The County and/or Municipality is requested to incorporate the location of WHPAs and IPZs into their emergency response plans in order to protect

	<p>municipal drinking water sources when a spill occurs along highways or rail lines; and</p> <p>b. The Ministry of the Environment, Conservation and Parks is requested to provide mapping of the identified vulnerable areas to assist the Spills Action Centre in responding to reported spills along transportation corridors.</p>
Transport Pathways	
<p>WC-NB-1.20</p> <p><i>Existing/Future Specify Action</i></p>	<p>To achieve the intent of the <i>Clean Water Act, 2006</i>, significant drinking water threats identified in the vicinity of a transport pathway shall be managed to reduce the risk to municipal drinking water sources such that they do not become a significant threat and that a pathway reduces the risk to the source water of a municipal water supply. The County and/or municipality are requested to support ongoing programs which encourage the decommissioning of abandoned wells as per O. Reg. 903 within all WHPA-A and IPZ-1 areas where there is or would be a significant drinking water threat.</p>
Prescribed Instruments	
<p>WC-MC-1.21</p> <p><i>Existing/Future Prescribed Instr.</i></p>	<p>Any Prescribed Instrument issued under the Nutrient Management Act that is created or amended or is used for the purposes of obtaining an exemption from a Risk Management Plan under section 61 of O. Reg. 287/07 shall incorporate terms and conditions that, when implemented, manage the activities they regulate such that those activities cease to be or never become, a significant drinking water threat. OMAFRA is expected to review all Prescribed Instruments issued under the Nutrient Management Act in areas where the activities they regulate are, or would be, significant drinking water threats to ensure the Prescribed Instruments contain such terms and conditions, including the Prescribed Instruments that are not directly created or issued by OMAFRA, such as Nutrient Management Plans.</p>
<p>WC-NB-1.22</p> <p><i>Existing/Future Specify Action</i></p>	<p>OMAFRA, and other creators/issuers of Prescribed Instruments under the Nutrient Management Act, are expected to consult with the Risk Management Official with respect to any modifications or requirements that may need to be incorporated into such Prescribed Instruments to ensure the activities they regulate cease to be or never become significant drinking water threats.</p>
Interpretation	
<p>WC-CW-1.23</p> <p><i>Interpretation of Source Protection Plan</i></p>	<p>The Source Protection Plan provides policies to meet the objectives of the <i>Clean Water Act, 2006</i>. The Source Protection Plan consists of the written policy text and Schedules.</p> <p>a. The Schedules in the Source Protection Plan identify the areas where the policies of the Source Protection Plan apply. The boundaries for the circumstances shown on the Plan Schedules are general. More detailed interpretation of the boundaries relies on the mapping in the approved Assessment Report and the Specific Circumstances found in the Tables of Drinking Water Threats, <i>Clean Water Act, 2006</i>.</p> <p>b. Where any Act or portion of an Act of the Ontario Government or Canadian Government is referenced in this Plan, such reference shall be interpreted to refer to any subsequent renaming of sections in the Act as well as any subsequent amendments to the Act, or successor thereof. This provision is also applicable to any policy statement, regulation or guideline issued by the Province or the municipality.</p>

7.3 Policies Addressing Prescribed Drinking Water Threats

Policy Number	Policies Addressing Prescribed Drinking Water Threats within the County of Wellington
1. Establishment, Operation or Maintenance of a Waste Disposal Site, within the Meaning of Part V of the <i>Environmental Protection Act</i>	
WC-MC-2.1 <i>Existing Prescribed Instr.</i> WHPA-A-v.10; WHPA-B-v.10; WHPA-B-v.8; WHPA-C-v.8; IPZ-1-v.10	To ensure an existing waste disposal site within the meaning of Part V of the <i>Environmental Protection Act</i> that is subject to an Environmental Compliance Approval, ceases to be a significant drinking water threat, where this activity is a significant drinking water threat, as prescribed by the <i>Clean Water Act, 2006</i> , the Ministry of the Environment, Conservation and Parks shall review and, if necessary, amend Environmental Compliance Approvals to ensure that terms and conditions are incorporated that, when implemented, ensure that the activity ceases to be a significant drinking water threat.
WC-CW-2.2 <i>Existing Part IV-RMP</i> WHPA-A-v.10; WHPA-B-v.10; IPZ-1-v.10	To ensure an existing waste disposal site within the meaning of Part V of the <i>Environmental Protection Act</i> which does not require an Environmental Compliance Approval, ceases to be a significant drinking water threat, where this activity is a significant drinking water threat, as prescribed by the <i>Clean Water Act, 2006</i> , this activity is designated for the purpose of Section 58 of the <i>Clean Water Act, 2006</i> and a Risk Management Plan is required.
WC-MC-2.3. <i>Future Prescribed Instr.</i> WHPA-A-v.10; WHPA-B-v.10; WHPA-B-v.8; WHPA-C-v.8; IPZ-1-v.10	To ensure the establishment, operation or maintenance of a new waste disposal site within the meaning of Part V of the <i>Environmental Protection Act</i> that is subject to an Environmental Compliance Approval, never becomes a significant drinking water threat, where this activity would be a significant drinking water threat, as prescribed by the <i>Clean Water Act, 2006</i> , the Ministry of the Environment, Conservation and Parks shall prohibit these activities within the Environmental Compliance Approvals process.
WC-CW-2.4. <i>Future Part IV-RMP</i> WHPA-A-v.10; WHPA-B-v.10; IPZ-1-v.10;	To ensure the establishment, operation or maintenance of a new waste disposal site within the meaning of Part V of the <i>Environmental Protection Act</i> which does not require an Environmental Compliance Approval, never becomes a significant drinking water threat, where this activity would be a significant drinking water threat, this activity shall be designated for the purpose of Section 58 of the <i>Clean Water Act, 2006</i> and a Risk Management Plan shall be required.
2. Establishment, Operation or Maintenance of a System That Collects, Stores, Transmits, Treats or Disposes of Sewage	
Sewage System or Sewage Works – Onsite Sewage Systems and Onsite Sewage System Holding Tank	
WC-CW-3.1 <i>Existing/Future Specify Action</i> WHPA-A-v.10; WHPA-B-v.10; IPZ-1-v.10; ICA (NIT)	To ensure existing or new onsite sewage systems and onsite holding tanks with a design flow of less than or equal to 10,000 Litres per day and subject to approval under the <i>Ontario Building Code Act</i> or the <i>Ontario Water Resources Act</i> within a WHPA-A or WHPA-B with a vulnerability score equal to ten (10) or IPZ-1 or Nitrate ICA, cease to be or never become a significant drinking water threat, where this activity is or would be a significant drinking water threat, the municipality shall implement an on-site sewage system maintenance inspection program. Inspections shall be prioritized based on the proximity to the drinking water supply.
WC-CW-3.2 <i>Existing/Future</i>	To ensure existing or new onsite sewage systems and onsite holding tanks with a design flow of less than or equal to 10,000 Litres per day and subject to approval under the <i>Ontario Building Code Act</i> or the <i>Ontario Water Resources Act</i> within a
